

American Planning Association
Sustainable Communities Division

Making Great Communities Happen

The APA Sustainable Communities Division (APA-SCD) supports planners who are committed to planning for sustainable communities by integrating all aspects of sustainability into our work through the combined economic, social, and ecological factors that shape our communities.

APA-SCD is completing its second year as a Division! Our members are full of energy and we are quickly growing with nearly 500 members. Join the Division to:

- Network and share information with other professionals working on sustainability issues
- Get access to news updates and relevant information
- Volunteer your skills and knowledge to advance sustainable community planning
- Help the Division form priorities and improve member offerings

In the upcoming year the Sustainable Communities Division will be focusing on:

- Conducting the second annual Excellence in Sustainability Awards
- Establishing a sustainability leadership network
- Contributing to initiatives, such as the Smart Cities Initiative and updating the Sustainable Policy Guide
- Communicating sustainability in ways that better connect with the broader public.
- And more...
